Raising the BGAN bar

EXPLORER 710 is a portable satellite terminal set to usher in a new era in the world of BGAN by setting new standards for size, speed and features.

Smallest and Lightest

The smallest full Class 1 BGAN terminal positioned to support broadcasters by enhancing the quality of mobile outside broadcasting.

Fastest ever BGAN

Double the speed with Plug & Play bonding; simply connect two EXPLORER 710 terminals with an ethernet cable and achieve streaming rates over 1 Mbps.

Smart and Easy

EXPLORER 710 introduces smart devices to the world of BGAN, enabling users to connect their own smart phone for terminal control, voice calls and connectivity. The EXPLORER Connect App with a SIP softphone is available on Android and IOS.
